GENTLY DEALCOHOLIZED. FULL OF CHARACTER.

The base of our alcohol-free wines begins, quite traditionally, with grapes. Only afterwards is the alcohol removed particularly gently by vacuum evaporation at around 30°C. Thanks to the low temperature, the wine is not overcooked – fruit, bouquet and its characteristic aromas can be preserved as well as possible.

The result: alcohol-free wine enjoyment with the character and diversity you would expect from a good wine.

ENJOYMENT, WHEN ALCOHOL SIMPLY SHOULD NOT BE PART OF IT.

For wine lovers, athletes, drivers, calorie-conscious connoisseurs, older adults – and in fact for anyone who wants to avoid alcohol temporarily or permanently without giving up a special moment of enjoyment.

Whether with food, at lunch, in the evening with friends, or on special occasions: alcohol-free wine can be enjoyed just as versatilely as classic wines and sparkling wines.

And sometimes it can be a little more creative: many of our products are ideal as a base for alcohol-free cocktails, spritz drinks and fruity mixed beverages – from Lavender Spritz to Golden Island or Spice Sunset.
